General recommendations for all clusters in the accreditation:

- Strengthening overall Quality Assurance procedures at UIN
- Further develop evaluation procedures (in general)
- Revise Quality of Module handbooks and establish a uniform university-wide format
- Further develop the Internationalization strategy
- Further develop the information published on the website
- Establish individual library budgets
- Expand the diversity of teaching staff from outside of UIN
- Further development of administrative processes at UIN

Recommendations for programmes in this cluster

- The individual student success should still be extended to ensure that students have the opportunity to specialize within the different Bachelor programs (Student Specializations, ESG 1.2)
- Ensure to establish the requirements for a modern Islam integration into the individual Bachelor programs (Modern Islam, ESG 1.2)
- Identify the demand of interlibrary loan for staff and students and (if possible), establish a way to support students with this service. (Interlibrary loan, ESG 1.6)
- Internship Guidelines should be provided to ensure that all students are aware of the mobility semester and the general requirements to take an (international) internship. (Internship Guidelines, ESG 1.4)
- Promote the ongoing efforts of Internationalization with the support of staff and students to enter international exchange programs, not just in the ASEAN-countries. (Internationalization, ESG 1.5)
- Develop the individual programs according to the needs of external industry partners and (if possible) Alumni that also know UIN from the inside. Take the possibility of general feedback of different kinds of Graduates in different branches into account. (Alumni + industry feedback, ESG 1.9)
